GENERATOR SPECIFICATIONS

Brand _____
Gen Size _____
Generator Gas Load
_____ btu/hr
Pressure Required to Operate Generator
_____ "W.C./PSIG
Would you like us to install an inline tee and
shut off valve at the meter for the generator
connection? **YES** **NO**

Gas Meter Upgrade:

Please call into Consumer's Energy for the meter upgrade as follows:

Call **1-800-477-5050**

Press 1

Wait for next prompt and then,

Press 5 (this should be the start/stop/move service menu)

Wait for next prompt and then,

Press 5

At that point you are taken out of the automated system and will wait to speak to a live person. Tell them you want to get a meter upgrade for a generator. You will then be set up with a service planner that will contact you in a few days. If you don't receive a call from the service planner, you may want to call again.
