“

Two guys, came in and sniffed out the main problem in under an hour. They were fast, efficient and spot on. Took time to explain what they were finding in layman's terms

Mike from Oak Electric performed the service this year. Oak installed my unit 7 years ago and has performed the annual maintenance every year. I've always received exceptional service from them. Mike was consistent with what I've come to expect from Oak: professional, intelligent, great communications and friendly.

Description of work:
Annual generator maintenance

“

They were terrific. I thought the price was a bit high, but well worth it for the quality, responsiveness and professionalism

Subject: Lennox installation

“Jessica,

I just wanted to drop a quick note to let you know the installation crew and electrician that came out yesterday did a fantastic job.

They were Professional, courteous and made sure I was happy with the service provided. Great employees.

At my place of employment, we look for ‘Plus One’ opportunities to provide our services and go the extra step to make sure our customers are satisfied.

Your crew provided us with that Plus One experience. I look forward to my whole house generator installation coming up at the end of September.

Thanks again and be sure the crew knows that I appreciate their efforts.

Message Body:

We had Max come today and he was able to diagnose the problem and solve in a very professional manner. We now have our air back on which is really important since my husband has respiratory problems. Thank you Max you deserve a raise. ❤️”
